ENSW Intervention

WHAT RESOURCES ARE AVAILABLE
FOR YOUR CLINIC

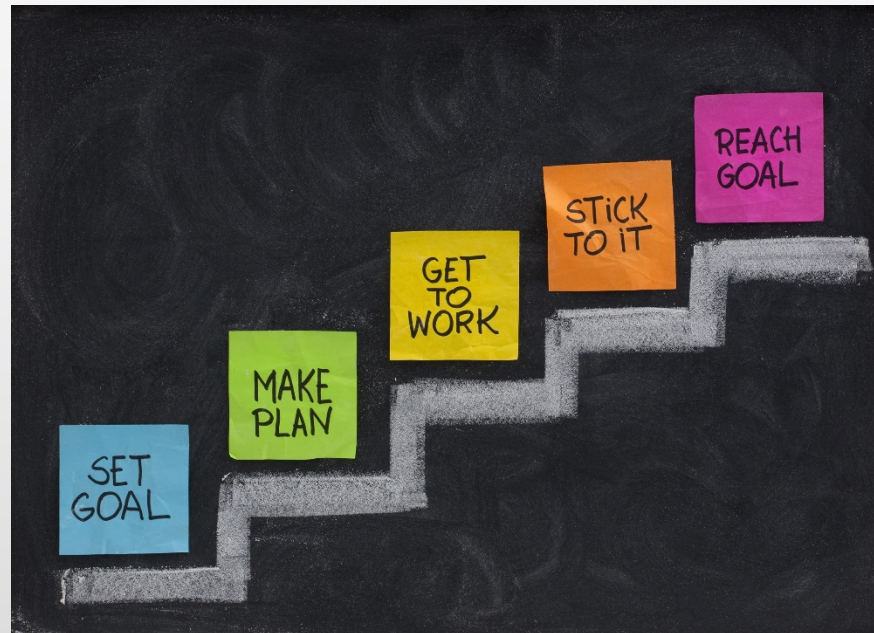

Introductions

- WHAT IS YOUR NAME AND ROLE?
- HOW LONG HAS YOUR CLINIC BEEN PART OF ENSW?
- CAN YOU POINT OUT YOUR FACILITATOR AND/OR HERO?

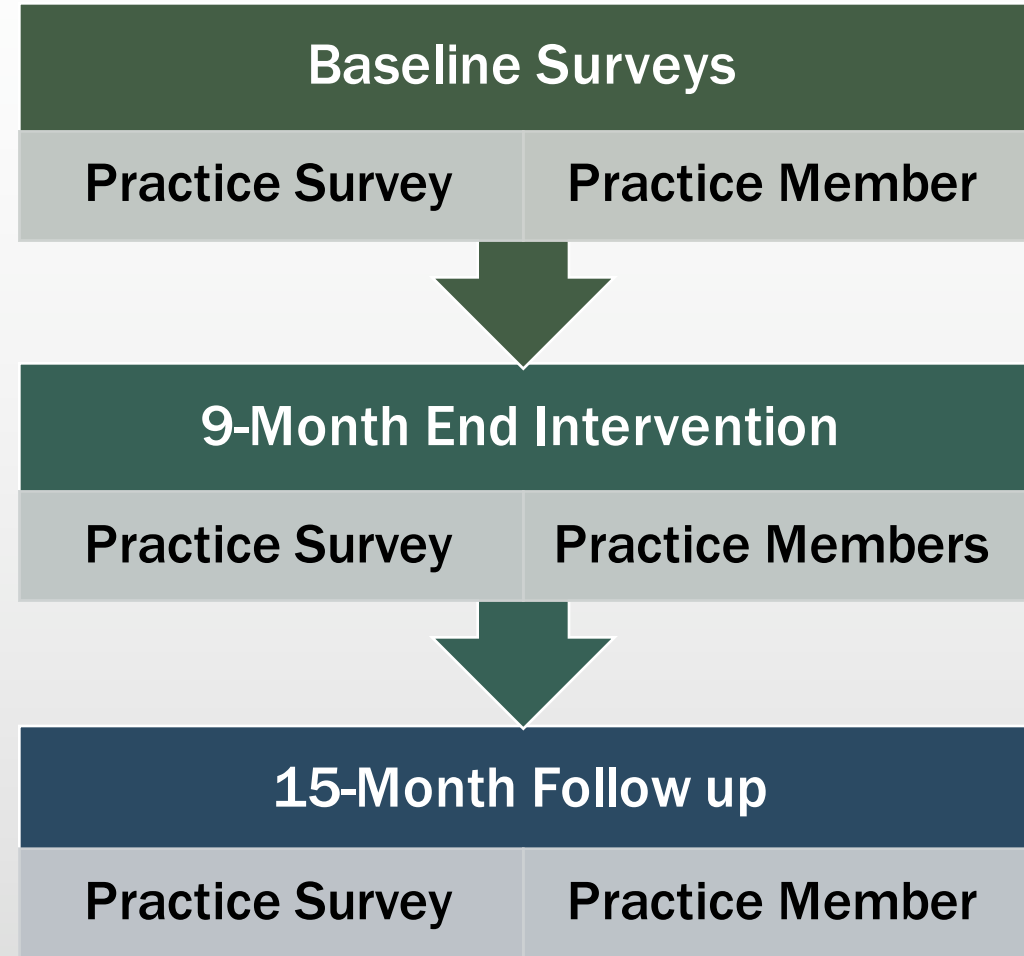

Goals

- To talk about data collection and how it can help your clinic
- Identify your ENSW Team and what roles they play to support clinic CVD goals
- List out the resources for ENSW and how to access them

Data Collection: How it helps your clinic

- **Baseline Surveys:** Provides a snapshot of your clinic and adaptive reserve before the intervention and helps develop the Practice Improvement Plan (PIP) and Data Quality Improvement Plan (DQIP)
- **9-Month Surveys:** Identifies changes that took place from the start of the 9 month of QI and data support
- **15 Month Surveys:** Identifies the retention and continuation of and CVD QI after the facilitation ends
- **CQMs** are gathered at each of the three time points and periodically throughout the 9 months of intervention

Welcome to the EvidenceNow Southwest (ENSW) e-Learning Website!

EvidenceNOW Southwest is one of seven regional cooperatives funded by the Agency for Healthcare Research and Quality (AHRQ) to provide small primary care practices with the support they need to improve heart health in their patients using the latest medical evidence. EvidenceNOW Southwest will serve up to 260 practices across Colorado and New Mexico with practice transformation and quality improvement support, including onsite practice facilitation and coaching, expert consultation, shared learning collaboratives, and electronic health record support. EvidenceNOW is a unique opportunity to reduce cardiovascular risk factors for hundreds of thousands of people across the region.

The e-Learning modules offered on this website, developed by faculty at the University of Colorado Department of Family Medicine, support the work of practices participating in ENSW. The PCMH e-Learning Modules provide comprehensive and practical information that can be applied to primary care practices. The content for the modules integrates the latest evidence and research on the PCMH and cardiovascular disease, presented in an engaging manner, utilizing videos, slide presentations, literature reviews, and practice activities.
